## Landmark's New Product Announcement for LM192 , LMK192, LMK199, LTK201

September 22, 2008

Landmark's **LM192 -150X1-AR** is a 15" XGA (1024 x 768) VHB (very high bright) Sunlight Readable LCD Module. The **LM192** has an anti-reflective polarizer that can maintain a good contrast ratio under very high ambient lighting. At the maximum backlight power of 37 watts the **LM192** delivers an extremely high screen brightness of 2,250 nits. At this level the display is highly readable in direct sunlight. The **LM192** has a wide operating temperature of -30° to 80° C. The **LM192** is also available as an Open Frame Kit as **LMK192-150X1-AR**. The **LMK192** Open Frame Kit has two controller card options. The **LMK192** can use the **MG22** controller card which has VGA Composite & S-video input or it can use the **MG21** controller card which has VGA, DVI input.

Landmark's **LMK199-400 WT** is a 40" WXGA (1366 x 768) VHB Sunlight Readable LCD Open Frame Kit. The **LMK199** has a very high contrast ratio of 2000:1. At maximum brightness setting the **LMK199** LCD module delivers 1,000 nits of screen luminance. As a result the **LMK199** can attract customer's attention much better than a regular LCD TV.

Landmark's **LTK201-420WX5** is 42" high brightness Open Frame Kit for digital signage applications. At full brightness setting the screen luminance is 870 nits which is about 75% brighter than regular 42" LCD TV's. The **LTK201** image displayed matches the superb quality of traditional advertising signs using light boxes behind color transparencies.

Product number	<u>LM192</u>	LMK192	LMK199	LTK201
Size/resolution	15" XGA	15" XGA	40" WXGA	42" WXGA
Brightness	2250 nits	2250 nits	1000 nits	870 nits
Contrast Ratio	800:1	800:1	2000:1	800:1
Controller	n/a	<u>MG22 or MG21</u>	<u>MG22</u>	<u>MG22</u>
