

Landmark's SB LCD display kits simplify your design process!

Landmark introduces our first in a series of SB (standard brightness) LCD Kits. The SB 17" LCD simplifies the design-in cycle of your projects by providing an all-in-one solution kit for your display need.

The SB 17" LCD Kit consists of :

- 17" LCD Module
- MG21 Controller Card with OSD Kit and Cables
- LVDS Cable
- BI145A inverter
- CBL-S5B-PH Inverter input cable

	Size	17"
	Brightness	250 nits
	LCD Resolution	SXGA (1280 x 1024)
	Contrast Ratio	1000:1

	Description	LVDS Cable
	Length	250 mm

	Product Number	MG21
	Video Inputs	VGA / DVI
	LCD Interface	LVDS
	Supported Resolution	VGA to SXGA
	LCD Voltage Supported	3.3V / 5V / 12V

	Product Number	BI145A
	Description	Backlight Inverter
	Input Voltage	12V
	Dimming Control voltage	0 - 5 V

	Product Number	CBL-S5B-PH
	Description	Inverter Cable
	Length	200 mm
