### Landmark Introduces the LMG216-150X1-AR 15" 1400 nits VHB LCD with LED Backlight

Landmark would like to introduce the LMG216-150X1-AR , its newest addition to the "Green" family of VHB LCD displays with low energy LED backlight. The LMG216 is a 15" 1400 nits XGA sunlight readable LCD module that consists of Very High Bright (VHB) LED backlight. The LMG216 is very compact in size and the thickness in depth of the panel is only half of our traditional CCFL VHB backlight.
